TACTILE PAVERS

Ground Surface Indicators

TACTILE PAVERS

Ground Surface Indicators

Tactile Pavers are an essential component of any pavement to provide safe access and utilisation for the vision impaired. Technically referred to as Tactile Ground Surface Indicators (TGSIs), Tactile pavers are used throughout the world for footpaths, stairs, open public spaces, shopping centres, airports, bus stops, and train platforms to aid the visually impaired navigate safe passage.

Stoneworks are leaders in tactile paving manufacture with the most technically advanced and automated paver manufacturing facility in Australia. Only Stoneworks can deliver superior quality and precision tactile pavers required to protect some of Australia's most vulnerable people.

With Stoneworks, you are in safe hands. Manufactured in Brisbane and shipped Nationally and World Wide, Stoneworks range of Tactile pavers are available in 4 colours in both directional and cautional design.

Features

- Exceed requirements of Australian Standard **AS1428**
- Superior dimensional consistency due to advanced technology
- Bayferrox® pigments provide outstanding colour longevity
- 4 Standard colours (**Charcoal, Linen, Red, Yellow**) custom colours available
- Suit use in conjunction with pavers, tiles, concrete, and asphalt
- Studs cast into paver avoiding lift off common with “stick on” tactiles
- Anti-efflorescence admixtures used in manufacture
- Manufactured in Australia
- 100% wholly owned Australian Company
- Available nationwide

Applications

- Footpaths
- Pedestrian crossings
- Steps
- Bus Stops
- Kerb Ramps
- Railway Platforms
- Around exterior obstacles such as trees

Technical Specification

Manufacture type: Wet Cast - High Strength Concrete

Relevant Standards: AS4455, AS4456, AS1428, AS3661

Dimensions: 300x300x40mm (excluding nib height)

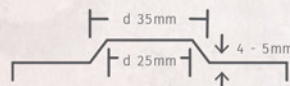

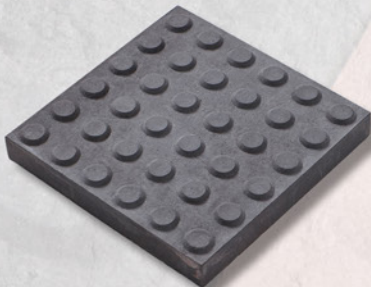

Salt Attack: Exposure Grade

Slip resistance: 'V' Rating

Strength: >50MPa

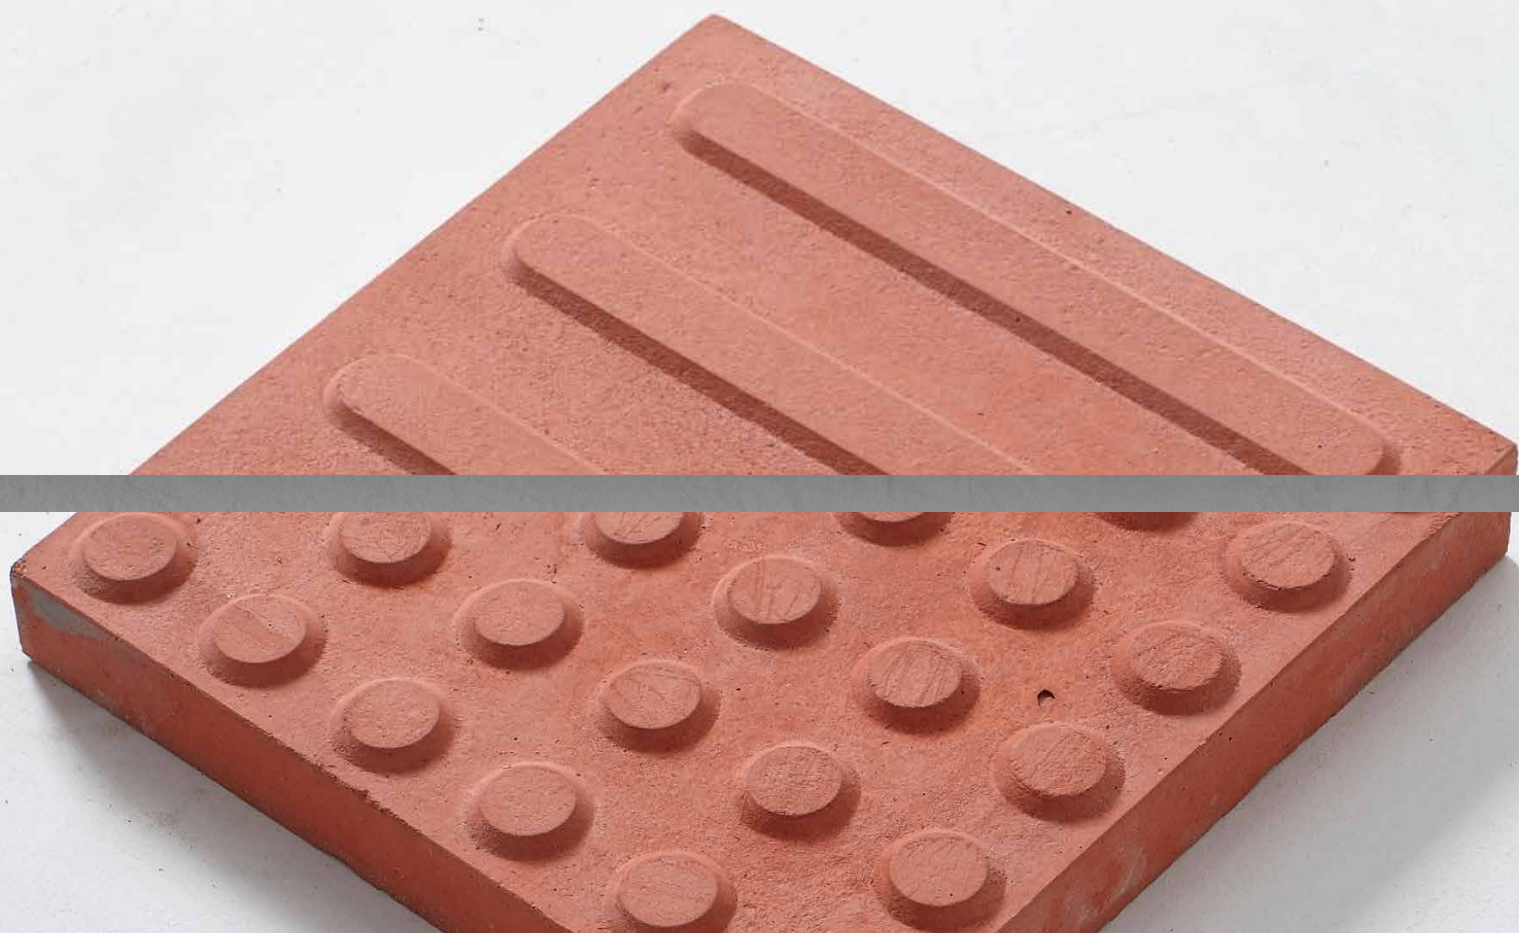

Colours:	Linen	Yellow	Red	Charcoal
Luminance:	62	56	12	8

Cautional

Directional

The spirit of hand craftsmanship delivered through superior technology and automation makes Stoneworks the logical choice of Pavers for your next project.
